TECHNICAL & TRADE EDUCATION STREAMING VIDEO COLLECTION

- INCLUDES:**
- Agriculture
 - Automotive Technology
 - Building & Technical Trades
 - Cosmetology
 - Engineering Technology
 - Information Technology
 - Technical Careers
 - Technical Communication

8,900 VIDEO CLIPS
950 FULL-LENGTH VIDEOS AND GROWING!

How does a hybrid car engine work compared to a gas engine? How do construction blueprints differ from electrical blueprints? What's the best way to connect IT networks that use different protocols? The hundreds of titles in this collection will help prepare students interested in vocational trades, including construction, cosmetology, communication, agriculture, applied engineering, and more.

- Conveniently segmented for lecture and in-class use
- Unlimited access from any location—on campus or off
- More than 430 hours of educational videos, lectures, and documentaries from top producers
- Captions, interactive transcripts, citations, Google Translate, and more
- New videos added at no additional cost
- Easily embed videos into Blackboard, Moodle, or other CMS
- Tablet- and mobile-friendly

Use the powerful search and browse tools to find the perfect titles and clips for lectures and assignments.

TECHNICAL & TRADE EDUCATION STREAMING VIDEO COLLECTION

All titles are segmented into short, pedagogical clips, ideal for intermittent use during classroom lectures. For homework viewing, students can choose to watch an entire film without interruption. Titles within the collection are sorted across 38 distinct, browsable subject categories (e.g., Automotive Systems & Repair, Construction Management, Safety, Haircutting and Styling, Data Management & Security), enabling refined searches for available titles in specific topic areas.

EXCLUSIVE

Woodworking Tools

A 16-part series covering the major tools of the trade, including table saws, routers, planers, lathes, drills and drivers, rotary tools, sanders, and much more.

EXCLUSIVE

Residential Electrical Wiring

A comprehensive eight-part series on installing, upgrading, or updating residential electrical service.

EXCLUSIVE

Welding Processes and Fundamentals

A four-part series teaching the art of joining and cutting metals, a necessary skill in professions across multiple trades.

EXCLUSIVE

Green-ovating: Home Renovations for a Sustainable World

A four-part series showing how existing homes can be transformed to improve energy efficiency, eco-friendliness, livability, and sustainability. Topics include home performance, green design, energy, and sustainable landscaping.

Multiple titles on design, including:

Designers at Work Product Design; Graphic Design: What's in a Logo?; Elements and Principles of Design; What Inspires Design? Product Design—Process and Inspiration; Car Design: The Wheels of Change; An Introduction to Web Site Design; and more.

Here's a sampling of the collection highlights:

EXCLUSIVE

More than 140 titles on automotive technology, covering both theory and service/repair. Major exclusive series include:

Auto Body Repair (12 parts), *Hybrid Auto Repair* (six parts), *Powertrain Technology and Service* (seven parts), *ASE Certification Series* (six parts), *Chassis and Front End* (nine parts), *Automotive Computer Systems* (four parts), *Strategy-Based Automotive Diagnosis* (three parts), *Automotive Engines* (eight parts), *Electrical Systems* (seven parts), and much more.

EXCLUSIVE

Building Trades II

Shopware's massive 20-part series covering every facet of building a home, from design and planning to roofing, siding, and finishing. A comprehensive series produced in conjunction with the National Association of Home Builders.

EXCLUSIVE

Residential Energy Efficiency Projects

A five-part series covering how to complete some of today's most popular green home projects, including installing solar electric, solar hot water, air sealing and insulation, upgrading a furnace, and performing a home energy audit.

EXCLUSIVE

Safety and Technology Series

A six-part series that addresses proper safety for those who work in technical or industrial trades, including automotive, electrical, welding, woodworking, metalworking, and general shop safety.

More than 30 hours of hairstyling and haircutting videos, including:

Basic Hairstyles (seven parts), *Hair Coloring* (four parts), *Hair Brushing and Cutting* (10 parts), and *Men's and Children's Haircuts* (five parts).

EXCLUSIVE

Woodworking: The Art and the Craft

A 15-part series that is like having a master craftsman as a teacher's aide. From the basics of measuring and cutting, to the details of dovetail joints and finishing work, this indispensable tool helps students to learn skills before trying them and reinforce them afterward.

EXCLUSIVE

Math in Technology

A series focusing on the math skills specific to each trade. Automotive technicians, carpenters, and electricians all work with their hands, but that doesn't mean they can get by without doing math.
